**Activities:**

**Wine Blending Challenge**

This is a one-of-a-kind opportunity for your guests to form teams and work together to create their very own wine. Guests will be broken up into teams of 4-7 and challenged to think like a winemaker; the group will learn from our Sommelier about 3 unique wine varietals, the characteristics of each one, and how wineries utilize the profiles of each to create the wine blends we buy today. Not only will each team develop their own wine, but they will also design a distinctive wine label and marketing strategy. Each team's complete package will be presented and evaluated by our judges; prizes will be given to the winning team.
